OVERVIEW

VENUE

Designed for a lavish celebration, **Brown Beach House** is perfectly located just a few steps away from the beach, and a short walk from Trogir, a medieval UNESCO protected town with rich history. It's that same history that breathes life into this cozy boutique hotel that came to life in a former tobacco shipment station and was transformed by Amsterdam based designer Saar Zafir into a funky and fashion-forward vacation getaway that remains sophisticated yet unpretentious.

WEDDING DESIGN

Showroom design and events have been creating weddings that are bespoke for 10 years now.

You can find a solution to your big flower story with them. The idea is to create a complete visual impression of your wedding, so they prefer weddings that are substantially and conceptually refined to the last detail. The notes and colors of the flowers should perfectly match the choice of space, the season and, above all, your personal style.

WEDDING ORGANISATION & COORDINATION

Being in business since 2008, the **Weddings in Croatia** team is still equally enthusiastic and successful in wedding planning and coordination. WE LOVE WEDDINGS! Our mission is to make every wedding perfect and stress-free for bride and groom!
